Elliphant

Am feelin quite alright
Most be a full moon poppin tonight
You know I'll be the fool in the full moon light
And if it ain't full is cus I had a bite
I grind every day like a circus monkey
Confess to my dentist I am sinner
Shovel black snow into my melting heart
Molding in to the brick
What's for Dinner
Decompose your self
Come and capitulate
Lifes a bufe
Give me your dick on a plate
Call me by name na Salome
Erase me out of papa fukka history

I think you fit in to obsessive behavior
These days we go pray to a diagnostic savier
I ride on the spectrum wavein
Ciant talk right na Am ravin
Devouring desire to get a bit higher
I won't join your choir
You coco conspire
It's full on the wire
Singin
