

# Polluted Love

Elliphant

You need to be absurd to fall in love  
I'm a city, come and move into me  
Everything is new, soon the sun will rise here  
If you just trust me, take a step out darling fall in

Right into my love, rush hour red light  
Right to my heart, right to my heart  
Rush into my arms, busy street sign  
Polluted love, polluted love

I had to break apart to let you in  
I'm a city, you won't get lost in me  
Yeah, I know it hurts to be reborn  
Stepped on eggshells, so follow the bloody footsteps

Right into my love, rush hour red light  
Right to my heart, right to my heart  
Rush into my arms, busy street sign  
Polluted love, polluted love

Climbing high skyscrapers in you  
Explore the underground in me  
Tear the town down, making anew  
Bulldozers coming through  
Climbing high skyscrapers in you (polluted love)  
Explore the underground in me (polluted love)  
Tear the town down, making anew (polluted love)  
Bulldozers coming through

I'll eat your downtown  
I'll wash my body in the swamp

And make love in your park  
I'll feel so safe in your allies at night  
Afraid of your traffic  
Trust every part of us  
I'm wild, walking your sidewalks  
Sidewalks (yeah)

Climbing high skyscrapers in you  
Explore the underground in me  
Tear the town down, making anew  
Bulldozers coming through  
Climbing high skyscrapers in you (polluted love)  
Explore the underground in me (polluted love)  
Tear the town down, making anew (polluted love)  
Bulldozers coming through

Polluted love  
Polluted love  
Polluted love  
Polluted love
