

# Time Machine

Elliphant

Just come over and watch Pulp Fiction tonight  
I hit the liquor store and get us a big box of wine  
Go wipe that vinyl off, put a record on for once  
And celebrate the memories we lost

We got way back, time machine  
Time machine, time machine, my time machine  
In my kitchen, time machine  
Time machine, you my time machine  
[?] with my boo  
Drinking cheap wine, like we used to do  
I just love it, but we made it through  
I stay drunk in the ICU  
Cause we go way back, time machine  
Time machine, oh yeah, you my time machine

Through my open window on the second floor  
Howling sons that nobody remember no more  
Go wipe that vinyl off, put a record on for once  
We telling lies that really is the truth

We got way back, time machine  
Time machine, time machine, my time machine  
In my kitchen, time machine  
Time machine, you my time machine  
[?] with my boo  
Drinking cheap wine, like we used to do  
I just love it, but we made it through  
I stay drunk in the ICU  
Cause we go way back, time machine  
Time machine, oh yeah, you my time machine

We travel right back tonight  
Like snowflakes dancing in the summertime  
I [?]  
This is where I need to be, so happy in my time machine  
Travel right back to when we didn't knew each other yet  
And then repeat it  
I would do it all again  
I would do it all again  
Do you remember?

[?] with my boo  
Drinking cheap wine, like we used to do  
I just love it, but we made it through  
I stay drunk in the ICU  
Cause we go way back, time machine  
Time machine, oh yeah, you my time machine  
Do you remember?  
Time machine  
Do you remember?  
Time machine
