

# To The End

Elliphant

One day you will wake up and see  
There's a lot inside  
Shining right through me  
Sometimes we all just have to be  
Like a steady ship  
On a raging sea

But I'm never lonely  
Can feel all the power running through me  
Yeah I will keep rising, rising  
Never giving in

I remember to the end, to the end, to the end  
I remember, to the end  
I remember fight again, fight again, fight again  
I remember, fight again  
Yeah I will fight again  
The pain will strike again  
I will fight again  
Yeah I will fight again  
I remember to the end, to the end, to the end  
I remember, to the end

My shoulder's carry heavy load  
While I'm on my way  
To that great unknown  
Right tomorrow never knows  
But I lived today, I just go go go

But I'm never lonely  
Can feel all the power running through me  
Yeah I will keep rising, rising  
Never giving in

I remember to the end, to the end, to the end  
I remember, to the end  
I remember fight again, fight again, fight again  
I remember, fight again  
Yeah I will fight again  
The pain will strike again  
I will fight again  
Yeah I will fight again  
I remember to the end, to the end, to the end  
I remember, to the end

I be like  
I'm the one

I remember to the end, to the end, to the end  
I remember, to the end  
I remember fight again, fight again, fight again  
I remember, fight again  
Yeah I will fight again  
The pain will strike again  
I will fight again  
Yeah I will fight again  
I remember to the end, to the end, to the end

I remember, to the end
