

# TRENCH

Elliphant

Don't come rub it off  
You got a bad vibe  
I give what I can but I can't  
With you people I'm endangered  
Shadows out there try to cut my tongue  
Hiding in my tower like a wasted monk  
Meditate to the breeze and the punk  
Me with myself and a bag of...

I be spinning round my circles  
Stay away from the circus  
Don't need to swim around  
Paranoid hipsters with herpes  
Yeah every time I put my nose out  
In this pretty city  
Someone go and take their ghost out  
Throw demons at me

I'm hiding in the trench  
You making no sense  
I built up a defense  
Mind your own fukkin business  
I'm hiding in the trench  
Tobacco smoke sense  
Stuck on a pine branch  
Mind your own fukkin business  
I'm hiding in the trench

Spit in it  
Bleed in it  
Spiritus  
Feeding it  
Throw in a bone but nobody get it  
Firework pop but nobody see I'm a star  
See me twinkle  
Fever out there so I piss in my sprinkle  
Using a collar that bring on my wrinkle  
Shoo! You stink!  
I'll be clubbin' in my kitchen 'til I rumble down my bedroom  
Howling in the shower  
Make a bonfire burn  
In the center of my sofa got taggings on the wall  
Bitch come straight out of trench culture!

I'm hiding in the trench  
You making no sense  
I built up a defense  
Mind your own fukkin business  
I'm hiding in the trench  
Tobacco smoke sense  
Stuck on a pine branch  
Mind your own fukkin business

I'm hiding in the trench

Bitches and witches  
I'm callin' for you, please hurry

We need your knowledge, come teach us  
I beg you come out and revel yourself  
Trolls and my goblins  
It's time to recruit I'm comin'  
Bring ammunition protection for them who's hiding in trenches  
It's time to rise and make changes  
It's time to open up your hearts to the the trash n' the dirt  
I'm reclaiming myself and I don't care if it hurts  
Craving the sulfur to put out my thirst  
Crack up a rock and drink when it burst  
Dung me down not scared to be dirty  
Everybody rowdy when the gun go

I'm hiding in the trench  
You making no sense  
I built up a defense  
Mind your own fukkin business  
I'm hiding in the trench  
Tobacco smoke sense  
Stuck on a pine branch  
Mind your own fukkin business

I'm hiding in the trench
