

Uterus

Elliphant

Those were the days
Those were the days
When I was born, I try to kill myself for sure
Had the umbilical cord
Three times around my neck
Oh, blue baby girl
My mother cried for sure
I had to have you to keep me alive
So keep me alive
I keep you alive

Those were the days
In that good old uterus
What a beautiful place
That good old uterus
What you doing, mama, is telling me that I'm naked here and you just gonna k
ick me out
Out of that good
Good old uterus
Uterus

Yea, its too easy to die
To many ways to lose your mind
Here on the outside
Here in the sun
A kiss that could save me
Could kill anytime
So why don't you take me
Just take me
Away
Cause

Those were the days
In that good old uterus
What a beautiful place
That good old uterus
What you doing, mama, is telling me that I'm naked here and you just gonna k
ick me out
(Yeah)
Out of that good
Good old uterus
Uterus
Out of that good
Good old uterus

Body and soul collide
A universe alive inside
Rivers mountains come alive
Rain and thunder in my eyes
Poisoned flowers bloom at night
Fall on me from open sky
Before I learned just how to cry
The day you born you start to die
So take me back
Hey mama!
Mmm, take me back
Ey

Back in to that good
Good old uterus
Back in to the hood
That good old uterus
Cause those were the days
In that good old uterus
Yeah, what a beautiful place
That good old uterus
Uterus, uterus
Uterus, uterus, uterus
Uterus, uterus
That good old uterus

Take me back
Take me back
Take me back
Take me back
Take me back
Take me back
Take me back

Back into that good
Yeah, that good old uterus
Back into
Back into u...
Back into uterus...
