

# Where Is Home

Elliphant

When the way come you know we can't stay  
And then restlessness is calling out for me  
And you flashes pink and life is color blue

Hunger here, hunger never die  
We got love, we can still survive  
And what I feel's what I gotta do  
But can I rest with you?

Where is home?  
I'm starting to believe that it is gone  
Cause I don't find it  
Though I'm looking  
Keep searching  
Where is home?  
All I want is silence in my soul  
But I don't find it  
Though I'm looking  
Keep searching

I'll be searching, searching, searching

Life is drifting so fast, I don't sleep  
I'm afraid to miss a moment where I'm free  
With you where we're both lost  
And nothing we have cruel

I can jump cause I know I land  
All I need is to trust your hand  
And like the wind I will blow away  
Unless you make me stay

Where is home?  
I'm starting to believe that it is gone  
Cause I don't find it  
Though I'm looking  
Keep searching  
Where is home?  
All I want is silence in my soul  
But I don't find it  
Though I'm looking  
Keep searching

I'll be searching, searching, searching  
And I'm bursting, bursting, bursting  
My mind is rumbling, rumbling, rumbling  
Cause I'll be wondering, wondering, wondering

Where is home?  
I'm starting to believe that it is gone  
Cause I don't find it  
Though I'm looking  
Keep searching  
Where is home?  
All I want is silence in my soul  
But I don't find it  
Though I'm looking

Keep searching

Where is home?

I'm starting to believe that it is gone

Cause I don't find it

Though I'm looking

Keep searching

I need peace

All I want is silence in my soul

But I don't find it

Though I'm looking

Keep searching

I'll be searching, searching, searching
