

bite

Ellise

Take a bi-te, bi-te
Take a bi-te

Take me home
Your secret garden
I've been starving

Turned to stone
My god to worship
I've been searching

I'm addicted
Fruit forbidden
Love this vicious cycle

Tunnel vision
I'm your victim
Swore I'd save my soul
But baby I

Lied lied
Said I didnt need you but I do
I'd die
Just to take another bite of you
To tell you the truth
I'd do anything that you tell me to
Don't you know that
I'd die
Just to take another bite of you

I don't want your attention
On anyone but me
Don't you feel this tension?
It's got me on leash
Follow any direction
Anything you please
One hell of a heaven
And boy you got the key

I'm catching a fever
I'm getting weaker
Don't understand how you're the cause and the cure

I'm skating thin ice
Watching the ink dry
Said I wouldn't sign the dotted line

But baby I

Lied lied
Said I didn't need you but I do
I'd die
Just to take another bite of you
To tell you the truth
I'd do anything that you tell me to
Don't you know that
I'd die

Just to take another bite of you

(Take a bi-te, bi-te
Take a bi-te, bi-te)

Bleeding me dry
How I like
Take a bi-te, bi-te

Tell me I'm yours
And you're mine
Take a bi-te, bi-te

Lied lied
Said I didn't need you but I do
I'd die
Just to take another bite of you
To tell you the truth
I'd do anything that you tell me to
Don't you know that
I'd die
Just to take another bite of you

Bleeding me dry
How I like
Take a bi-te, bi-te

Tell me I'm yours
And you're mine
Take a bi-te, bi-te
