

Deadly

Ellise

You should've known
That I was trouble when you met me
He calls me pretty
But he loves me cause I'm deadly
You're suffocating
They won't hear you screaming, "help me"
One look is all it took
He loves me cause I'm deadly

I've been causing a scene
But you love when I'm out of my mind and dangerous
You've been weak in the knees
Half scared, have hearts in your eyes so save it
Oh, so precious, get your weapons
When your running gives me butterflies
I'm a mess, it gets so hectic
But you never say goodbye

Closer baby, don't be shy

You should've known
That I was trouble when you met me
He calls me pretty
But he loves me cause I'm deadly
You're suffocating
They won't hear you screaming, "help me"
One look is all it took
He loves me cause I'm deadly

Blood stains, blue veins
Your skin as cold as ice
No one complain
No fear left in your eyes
And I don't really wanna talk about anyone but us
Try to get by me once but I shut it down
Now you left the curse

Something dangerous on my tongue

You should've known
That I was trouble when you met me
He calls me pretty
But he loves me cause I'm deadly
You're suffocating
They won't hear you screaming, "help me"
One look is all it took
He loves me cause I'm deadly

Hooked on me, I figured it out
Likes a little crazy, gotta keep me around
On your knees, I'm breaking you down
You could say you hate me, but you never walk out
Hooked on me, I figured it out
Likes a little crazy, gotta keep me around
On your knees, I'm breaking you down
You could say you hate me, but you never walk out
