

# Fatal Flaw

Ellise

Seep through my bones in my head  
You were crowned and seated on the throne  
You made my mind your home  
Where you've lain with your lies  
Reap what you sow, you can't help it  
You show those golden undertones  
I'm pulled into your glow  
You're blind, leave me blind

Your energy is heavenly  
So heavy, help me, lead the way  
You're selling me a bittersweet eternity  
I go insane

It's gettin' intimate  
Tell me you're into it  
Don't wanna be your friend  
Wanna be on your skin  
You are my fatal flaw  
It's getting crowded here  
We should get out of here  
We could go anywhere  
Get the fuck out of here  
You are my fatal flaw

Take me away to a place, call it safe  
Our very own oasis  
We'll waste our precious days  
Sweet to the taste  
Kiss my face and I'll stay  
Can't see the stealing fading  
I don't care anyway

Your energy is heavenly  
So heavy, help me, lead the way

It's gettin' intimate  
Tell me you're into it  
Don't wanna be your friend  
Wanna be on your skin  
You are my fatal flaw  
It's getting crowded here  
We should get out of here  
We could go anywhere  
Get the fuck out of here  
You are my fatal flaw

This feels like God  
Please never stop  
Don't leave me lost

It's gettin' intimate  
Tell me you're into it  
Don't wanna be your friend  
Wanna be on your skin  
You are my fatal flaw  
It's getting crowded here

We should get out of here  
We could go anywhere  
Get the fuck out of here  
You are my fatal flaw

Don't leave me lost
