

# Feeling Something Bad...

Ellise

How can I say what I wanna say  
Never learned how to really speak my mind  
Let me get a word in I  
Guess my brain doesn't think I should try  
Count up to 10 and play it on rewind  
How do I say what I'm tryna say  
When I can't even look you in the eye?

This is difficult  
Wanna be your pretty baby, centerfold  
(I don't know)  
I sound delusional  
But when we kissed you gave an inch, I took a mile

And I see you when I sleep, please don't hate me  
If I bring this to the light, am I crazy?

Think I might be feeling something bad  
Do I want it bad enough to ask  
Maybe my obsessions drive me mad  
Think I might be feeling something bad

Making me sick and my stomach hurts  
Grab my hand, I don't wanna let go  
Sorry if my cheeks turn red  
Blood is pumping, I stare at the floor  
Count up to 10 and now I want it more  
Touch me again and my skin burns  
I don't like that I like it tho

This is difficult  
Let me be your little baby, have it all  
(Is it wrong?)  
I sound delusional  
But when you kiss me envision something beautiful

And I see you in my dreams, please don't hate me  
If I let the words come out, I'll sound crazy

Think I might be feeling something bad  
Do I want it bad enough to ask  
Maybe my obsessions drive me mad  
Think I might be feeling something bad

Think I might be feeling something bad  
Do I want it bad enough to ask  
Maybe my obsessions drive me mad  
Think I might be feeling something bad

How do I say what I'm tryna say  
When I can't even look you in the eye?
