

# Ghost

Ellise

If I told you I love you  
Would it open my eyes  
Would it pick up my mind  
Would it kill me at night  
If I told you I love you

Cause baby I know that you never really felt that way  
Day by day  
You turned to a shadow put me in the shade  
Nothing left to say  
With restraints on me, oh

Tell me if we're burning down  
Cause I keep seeing ashes all around me now  
Can't sleep in a burning house  
Chain me to the bed and you won't let me out  
Packed bags, you're gone without a sound  
Leaving me to feel the pain all by myself  
Oh well, I could always tell  
You're nothing but a ghost to me now

I could tell you I love you  
But you wouldn't reply  
Wouldn't look at my eyes  
Wouldn't care when I cried  
Why would I tell you I love you

Cause baby I know that you never really felt that way  
Day by day  
You turned to a shadow put me in the shade  
Nothing left to say  
With restraints on me, oh

Tell me if we're burning down  
Cause I keep seeing ashes all around me now  
Can't sleep in a burning house  
Chain me to the bed and you won't let me out  
Packed bags, you're gone without a sound  
Leaving me to feel the pain all by myself  
Oh well, I could always tell  
You're nothing but a ghost to me now
