

# Massacre

Ellise

Wish I would've left that night alone  
Wish I didn't smell like his cologne  
I've been shoving secrets down my throat  
Hope I don't choke (ahh)

I wanna spill my guts  
I gotta bite my tongue  
Baby, it's eating me alive  
I got a loaded gun  
Ready to hit-and-run  
Don't wanna see the other side

It could be a massacre  
A murder with no warning  
Wish I made you happier  
But all I know is hurting  
Sick to my stomach, the damage is done  
Yeah, you gave me your love and I burned it  
It could be a massacre  
I'm sorry, you didn't deserve it

Sleeping next to you but miles away  
Lying in my bed of lies and shame  
Could I really take it to the grave  
To keep you safe

I wanna spill my guts  
I gotta bite my tongue  
Baby, it's eating me alive  
I got a loaded gun  
Ready to hit and run  
Don't wanna see the other side

It could be a massacre  
A murder with no warning  
Wish I made you happier  
But all I know is hurting  
Sick to my stomach, the damage is done  
Yeah, you gave me your love and I burned it  
It could be a massacre  
I'm sorry, you didn't deserve it

Murder, murder  
Someone call the doctor  
Heard ya, burned ya  
Sorry for the torture  
Murder, murder  
Guess I shoulda warned you  
Screaming "bloody massacre"
