

Before I Take A While

Elmiene

Oh, no, no

Ever felt the need to claim your touch?
You do anything to take it
Turn your world around
Ever felt that's all too much love?
'Cause I need it like I've never before

Before I take a while
I'm gonna need some time to see my girl
Before I take a while
I'm gonna need some time to feel my worth

'Cause I need, I need, I need
I need, I need, I need
I need, I need, I need
A moment for the me that never could

You've given me too much to say
You've given me too much to say
I won't
Given me too much to say
You've given me too much to say
I won't
I won't
I won't

Ever filled your heart with too much hope?
I've given all I've given this for a vision
Ever threw away the things you know?
It's taken everything to make this decision

Before I take a while (Take a while)
I'm gonna need some time to see my girl (See my girl)
Before I take a while (Take a while)
I'm gonna need some time to feel my worth (My worth)
'Cause I need, I need, I need
I need, I need, I need
I need, I need, I need
A moment for the me that never could

You've given me too much to say
You've given me too much to say
I won't
Given me too much to say
You've given me too much to say
I won't
I won't
I won't
