

Honour

Elmiene

Mm
Oh-oh
Yeah
Oh-oh-oh, ooh

I've always been the one to doubt myself
Convinced I don't deserve a "someone else"
So now that I'm with you, it's true, I'm scared
I fear I'm not enough to show you care

Love gives me a habit of pushing over
I could never really fight back (Back)
Wanna be the man you helped me discover
But you need to keep me intact ('Tact)
As much as you're my light (Light)
We always fuss and fight (Fight)
I wish you'd just believe in me (Me)
So we can survive ('Vive)
To keep you in my life (Life)
I need you to confide in me, oh

Honour, honour, honour, honour
Honour, honour me
Find it in your heart to try and please just honour me
'Cause there ain't a replay or a playback (No)
Only got this time and don't you ever doubt that
With all of your respect ('Pect)
So we don't forget ('Get)
Honour, honour me
I need it, babe
Honour, honour
Honour, oh, oh (I need it, babe)
Honour, honour
Honour, oh, oh

The secret is you know my deepest thoughts
So maybe, in return, let down your guard
I'm not asking you to lose the shape of your heart
I'm showing you we're worth not falling apart

Love gives me a habit of pushing over
I could never really fight back (Back)
Wanna be the man you helped me discover
But you need to keep me intact ('Tact)
As much as you're my light (Light)
We always fuss and fight (Fight)
I wish you'd just believe in me (Me)
So we can survive ('Vive)
To keep you in my life (Life)
I need you to confide in me, oh

Honour, honour, honour, honour
Honour, honour me
Find it in your heart to try and please just honour me
'Cause there ain't a replay or a playback (No)
Only got this time and don't you ever doubt that
With all of your respect ('Pect)

So we don't forget ('Get)
Honour, honour me
I need it, babe
Honour, honour
Honour, oh, oh (I need it, babe)
Honour, honour
Honour, oh, oh
Honour, honour
Honour, oh, oh
Honour, honour
Honour, oh, oh, oh
