

Open Light

Elmiene

Caught fire instantly
Now our home is just sirens and ash
How quiet I can be
Watching embers just fade into air

Saving nothing
When the story ends we're running for cover
Will the Lord send His feathers to hover?
Feathers to hover

Open light
Hold me as you leave
I could swear I heard you calling me
I believe
Help me see I
We're not just made to suffer
Show me the way to prosper
Let it speak
While the wheel turns

A liar I can be
In this world that I wish we had
I'm so tired of grief
Now my heart is a weight unmatched

Saving nothing
When the story ends we're running for cover
Will the Lord send His feathers to hover?
Feathers to hover

Open light
Hold me as you leave
I could swear I heard you calling me
I believe
Help me see
We're not just made to suffer
Show me the way to prosper
Let it speak
While the wheel turns

I believe
Help me see I
We're not just made to suffer
Show me the way to prosper
I believe
Watch you leave
Help me see
Let it speak
As the wheel turns, turns
Turns
Watch you leave
Watch you leave
Open light
Hold me as you leave
I can see, I can see you leave
