

# Reclusive

Elmiene

Mmm, yeah

Break my routine  
Change up the scene  
Get up and leave  
That's what I say to me  
In my safe space  
Wake up and play  
Video games  
I think I need a change

Even in the darkest times  
Even when I'm in the light  
I keep to myself  
I think I need a little bit of time away  
Fourteen days, I been alone  
Wonder should I take a stroll  
Or do I stay in my mind?

'Cause I get so reclu-  
I get so reclusive  
I get so reclu-  
I get so reclusive  
I get so re-

Out on the streets  
Stepping on leaves  
Is there a reason  
Why's it always raining?  
Everything's far  
I should just start  
Stop the complaining  
That's what I keep saying

I ain't even gonna lie  
Not a social butterfly  
I keep to myself  
I think I need a little bit of time away  
Is it healthy to be this alone?  
Wonder should I take a stroll  
Should I just go outside?

'Cause I get so reclu-  
I get so reclusive  
I get so reclu-  
I get so reclusive  
I get so re-

I get low, then I get high  
I get joy, sometimes I cry  
I just, I just wanna get by  
I just, I just wanna get by

I get low, then I get high  
I get joy, sometimes I cry  
I just, I just wanna get by

I get so reclu-  
I get so reclusive  
I get so reclu-  
I get so reclusive  
I get so re-
