

## Special

Elmiene

Morning, my heart, I know it's early but I couldn't wait  
I planned us a day of things to do  
You might be confused, I understand, I'll give you a clue  
It's not for us, it's all for you

There's no anniversary, no birthday, nothing, love  
Just you and me  
It's not Mother's Day or Father's Day or Valentine  
There's no reason to explain it away  
I'm just celebrating all of the ways  
You mean to me  
I do this all because you're

Special (Forever you are)  
Special, special, yeah, yeah, yeah (Forever you are)  
Special

Don't be so shy  
I wanna remind you you're more than a need  
By evening, I'll try and tell you how  
But I need more than a day to explain how I feel  
All year, maybe  
Or forever

There's no anniversary, no birthdays, nothing, love  
Just you and me  
It's not Mother's Day or Father's Day or Valentines  
There's no reason to explain it away  
I'm just celebrating all of the ways  
You mean to me  
I do this all because you're

Special (Forever you are)  
Special, special, my baby (Forever you are)  
Special  
You're special (Forever you are)  
Special, special, mm, yeah-yeah (Forever you are)  
Special
