

Until It's Dust

Elmiene

I blame this, only how I noticed
You're worth more than my time on earth is
Start to believe it's hopeless
And silence as my faith is falling
I've been praying, I want you over
Only for me in moments

Please, desperate as it seems
Set my mind at ease
Why can't I compete?

Oh, I hope I'm in a story you wrote
On a path that only fear knows
Or we combust 'til it's dust
Oh, you rose, or am I flying too close?
On a path that only fear knows
Or we combust 'til it's dust
Oh, crisis to the one that reads this
Don't let me give up on you sooner
Hope honesty can save it
Oh, teardrops and the stains in writing
Cry for you, in your arms, I'm fearless
All that I am in your trust

No, please, desperate as it seems
Set my mind at ease
Why can't I compete?

I hope I'm in a story you wrote
On a path that only fear knows
Or we combust 'til it's dust
Oh, you rose, or am I flying too close?
On a path that only fear knows
Or we combust 'til it's dust
