

My Bleeding Heart

Elmore James

People, people, people,
You know what it means to be left alone
People, people, people,
You know what it means to be left alone
No letter today

Not even a call on my telephone
Understandin' in a little lovin',
A little lovin' is all in the world I need
Understandin' in a little lovin', baby,
A little lovin' is all in the world I need
Misunderstandin' in a no good woman,
They both have caused my heart to bleed

Every morning,
The willow weeping moan for me
Every morning,
The willow weeping moan for me
The boy sing me a little song,
My baby's caused my heart to bleed
