

Take Me Where You Go

Elmore James

Take me with you when you go, girl
Take me anywhere you go
I've got nothin' here but me, babe

Take me with you when you go

I got a feelin' my mind's in the sky
And I can't catch a breath
Or a break like a guy who's stranglin' beggin'
For help, not attention
And then, not to mention, the pain that was mine
And I thought and I know
And that what's goin' on in my eyes
And my hands could be robbin' without any knowledge
I know that helpin' yourself could be hurtin' or harmin' someone

I got a feelin' my mind's in the sky
And I can't catch a breath
Or a break like a guy who's stranglin' beggin'
For help, not attention
And then, not to mention, the pain that was mine
And I thought and I know
And that what's goin' on in my eyes
And my hands could be robbin' without any knowledge
I know that helpin' yourself could be hurtin' or harmin' someone

Take me with you when you go, girl
Take me anywhere you go
I've got nothin' here but me, babe
Take me with you when you go
