

# Breathe

Elohim

Save me from my self  
I'm falling from the sky  
Catch me if you can  
We're running out of time  
It's getting harder to survive  
All these sleepless nights  
I desperately want  
To feel you by my side

I'm losing part of me  
When I don't have you  
It's getting hard to see  
Clear  
When I don't have you  
It's kinda hard to breathe  
Deep  
When I don't have you you you you

Whispers of your love  
Never let me go  
Swimming in the clouds  
I want to feel your pulse  
Complicated times  
Make it hard to say goodbye  
All I ever want is  
Our bodies intertwined

I'm losing part of me  
When I don't have you  
It's getting hard to see  
Clear  
When I don't have you  
It's kinda hard to breathe  
Deep  
When I don't have you you you you

This world's pretty crazy  
I don't know where I fit  
But I keep on dancing keep on dancing through all of it  
This world's pretty crazy  
I don't know where I fit  
But I keep on dancing keep on dancing through all of it
