Elohim

Turns out I'm right on time  
I've fucked up a thousand times  
Turns out I needed it so I could get my head right  
It's go time

Sit back kick back don't stress me  
Sit back kick back don't stress me  
Sit back kick back don't stress me  
I'm just getting started  
I'm just getting started  
The destinations where I'm going but the ride is what I'm enjoying  
The destinations where I'm going but the ride is what I'm enjoying  
Yeah

I guess I needed space  
Hind-site really is the wave  
I guess I gotta shut my head off when the voice is getting too loud  
She's too loud

Sit back kick back don't stress me  
Sit back kick back don't stress me  
Sit back kick back don't stress me  
I never really started its time to get it started

The destinations where I'm going but the ride is what I'm enjoying  
The destinations where I'm going but the ride is what I'm enjoying  
Yeah

Sit back kick back don't stress me  
Sit back kick back  
Sit back kick back don't stress me  
Sit back kick back

Over under the rainbow  
Over under the rainbow  
Over under the rainbow  
Over under the rainbow

Sit back kick back don't stress me  
Sit back kick back don't stress me  
Sit back kick back don't stress me

The destinations where I'm going but the ride is what I'm enjoying
