

# Float Away

Elohim

Every time I walk outside  
There's a chance that I might die  
How am I supposed to live my life knowing this  
Catastrophic mind games win  
Taking over all my senses  
Fight or flight, I don't want to waste away

When the sun goes down  
I'm thinking about  
Where I'd be without you in my life  
When the moon comes out  
I'm dreaming about  
Let it go when I lose control  
I think I'll float away  
I think I'll float away

Change the channel before I puke  
This world is melting with every feud  
How can something so beautiful wash away  
You help me see the positive  
Make the most of what it is  
I love when you tell me life is a precious gift

When the sun goes down  
I'm thinking about  
Where I'd be without you in my life  
When the moon comes out  
I'm dreaming about  
Let it go when I lose control  
I think I'll float away  
I think I'll float away

All I ever wanna do  
Is give you me 'cause I need you  
Kiss me where I feel it most  
Make it taste like honey toast  
All my worries disappear  
I feel better when you're here  
I don't wanna touch the ground, hey  
I think I'll float away  
I think I'll float away

When the sun goes down  
I'm thinking about  
Where I'd be without you in my life  
When the moon comes out  
I'm dreaming about  
Let it go when I lose control  
I think I'll float away  
I think I'll float away
