

(Fuck my life  
Fuck my life)

Fuck my life

Okay, so this is a look into what my childhood was like  
Um, uh my parents kind of made me play classical piano  
And you know I would go these recitals  
And all these girls would be so proper in their pink tutu dresses  
And I would show up in black gloves that had skulls on them  
And I'm pretty sure I pissed off my teacher a lot  
But you know and I was probably the only eight year old there that was thinking  
Fuck my life  
But honestly thank God for those days and for my parents, I love you guys so much, aha  
Without that I wouldn't be here right now doing this  
So, um, thank God for creativity, right?
