

Group Therapy

Elohim

Sun comes up, lyin' in bed
Up to late, feel like I'm dead
Head is pounding, like
Like I'm drowning
Tryna hold on, tryna let go
Gettin' too high, feelin' too low, like
I'm a function of
Self-destruction

I have discovered I need some help
Looking for others just like myself
I just wanna mingle with some people
Who are just as weird as me
I'm in the mood for group therapy

Doorbell rings, I'm not there
Outta my mind, floatin' out there, like
Nasty weather, I'm
Under pressure
Survey says I'm a wreck
But I get by, gettin' high with my friends, yeah
We're all running to
To find something

I'm feelin' restless, don't wanna be alone
Don't need my family to make me feel at home
I just need to mingle with some people
Who are just as weird as me
I'm in the mood for group therapy

I'm lookin' for some
Lookin' for some
Lookin' for some
I'm lookin' for some
Lookin' for some
Lookin' for some
(I'm lookin' for some
Lookin' for some
Lookin' for some
I'm lookin' for some
Lookin' for some
Lookin' for some)
