

# Guts

Elohim

I feel a little bit empty now  
Tryna shake it but I don't know how  
I bet that you like that one  
I see that it didn't take long

What I lost someone found  
What I lost someone found

I can't keep keeping up with you  
I can't I keep keeping up  
I can't keep keeping up with you  
I can't keep keeping up

These guts are gone  
These guts are gone  
These guts are gone

I'm in the middle of a broken thought  
Pulling me back just to let me fall  
I get that I'm not the one  
Just feels like I wasted love

What I lost someone found  
What I lost someone found

I can't keep keeping up with you  
I can't I keep keeping up  
I can't keep keeping up with you  
I can't keep keeping up  
I can't keep keeping up with you

These guts are gone  
These guts are gone  
These guts are gone

I can't keep keeping up with you  
I can't I keep keeping up  
I can't keep keeping up with you  
I can't keep keeping up  
I can't keep keeping up with you
