

I Want You

Elohim

It's all good
I'm losing sleep but I don't think I need it, I need it
It's all good
I think I'm freaking out for no good reason, reason

So take me down
I want, want you now
Yeah I want
Take me down
I want, want you now
Want you now

I want you
I want you
I want you

Put your hands on it, hands on it
Lay back let me show you how to do it
Imma put it to you like, put it to you like damn, damn
Put your hands on it, hands on it
Lay back let me show you how to do it
Imma put it to you like, put it to you like damn, damn

I'm right here
I wanna know exactly what you're feeling, feeling
I'm right here
I wanna see precisely what you're seeing, seeing

So take me down
I want, want you now
Yeah I want
Take me down
I want, want you now
Want you now
I want you

Put your hands on it, hands on it
Lay back let me show you how to do it
Imma put it to you like, put it to you like damn, damn
Put your hands on it, hands on it
Lay back let me show you how to do it
Imma put it to you like, put it to you like damn, damn

Keep flipping out and I'm wondering why
Keep flipping out and I'm wondering why
Keep flipping out and I'm wondering why

I want you
I want you
I want you
