

# I'm Lost

Elohim

I'm lost  
Since I lost you  
You're gone  
Now I'm gone too  
It's crazy how you had me feel like all the gaps had mended through  
Like a million shiny miles had just turned into a step or two  
I'm lost  
Since I lost you-oo  
I'm so bored  
Without a thing to do

(Let's contemplate)

(Now rave)

No I can't... find... my... way home  
No I can't... find... my... way home  
No I can't... find... my... way home  
I'm Lost
