

metamorphine

Elohim

You're what I crave
You're in my veins
You're on my brain
I'm insane for you
It's hard to sleep
I barely eat
Can't hear the beat
Until I'm next to you

I hope I don't
Overdose

You're my metamorphine
No one else can hold me in your arms
You're my metamorphine
I think took too much of you tonight

I see your face
I get the shakes
My body aches
I can't escape you
So I take another pill
Chase the feeling till you're here

I hope I don't
Overdose

You're my metamorphine
No one else can hold me in your arms
You're my metamorphine
I think took too much of you tonight
You're my metamorphine
I think took too much of you tonight

What the fuck
I love you
I can't help myself...

You're my metamorphine
No one else can hold me in your arms
You're my metamorphine
I think took too much of you tonight

I hope I don't
Overdose
I hope I don't
Overdose
