

When I'm hard on myself the feeling lingers
When I count all my flaws I run out of fingers
I give love to my friends from the moon and back I wish I could just treat myself like that

Nice to myself
Fight for myself
Do what's right for myself
Put me before anyone else
Nice to myself
Til I start likin' myself
Ride or die for myself,
Put me before anyone else
I'm gonna be nice to myself
I'm gonna be nice to myself
I'm gonna be nice
Nice

When I look in the mirror I feel speechless
Only see my flaws and all my weaknesses I judge myself under the harshest light
Why can't I find a way to treat me right

Nice to myself
Fight for myself
Do what's right for myself
Put me before anyone else
Nice to myself
Til I start likin' myself
Ride or die for myself,
Put me before anyone else
I'm gonna be nice to myself
I'm gonna be nice to myself
I'm gonna be nice
Nice

(Do what's right for myself)
(Put me before anyone else)

Nice to myself
Fight for myself
Do what's right for myself
Put me before anyone else
Nice to myself
Til I start likin' myself
Ride or die for myself,
Put me before anyone else
I'm gonna be nice to myself
I'm gonna be nice to myself
I'm gonna be nice
Nice
I'm gonna be nice to myself
I'm gonna be nice to myself
I'm gonna be nice
Nice
