Panic Attacks

Elohim

Moved out to Topanga, now I'm livin' with God
My life was in danger from the path I was on
Now every inch of salvation, you know I'm gonna travel
I'm escaping to the place where all the judges lost their gavel
s, singin'

Where you been? Where you at?
Everything I did, I can take it back
I can't move on, I can't relax
'Cause when you're gone... panic attacks
Thinking of you lying down when I was faking sleep
Faking sleep when I was lying down thinking of you

Started taking pills and now I'm livin' alright
Besides the constant numbness and the thoughts of suicide
Now all the butterflies have turned to vultures in my stomach
We're just birds up on a wire playing who's the first to plumme
t

Where you been? Where you at?
Everything I did, I can take it back
I can't move on, I can't relax
'Cause when you're gone... panic attacks
Where you been? Where you at?
Everything I did, I can take it back
I can't move on, I can't relax
'Cause when you're gone... panic attacks
Thinking of you lying down when I was faking sleep
Faking sleep when I was lying down thinking of you

Everything is nothing, nothing's everything to me
Nothing's everything, everything's everything you see

Where you been? Where you at?
Everything I did, I can take it back
I can't move on, I can't relax
'Cause when you're gone... panic attacks
Panic attacks
'Cause when you're gone... panic attacks

Moved out to Topanga, now I'm livin' with God
