

Patience

Elohim

The early bird catches the worm
The oldest tale I've ever heard
Run run as fast as you can
The wolf will eat you and
He'll leave you for dead

Patience, patience
We're almost there
Patience, patience
We're almost dead

Walk fast
Sleep less
Don't be lazy
Worthless
Empty
Hungry for money
Manic robots
They don't teach empathy
Something's off here
Oh so creepy

Healing hurts more than the wound
Say your prayers before you're doomed
Try, try the best you can
The world will eat you
And it'll leave you for dead

Patience, patience
You're almost there
Patience, patience
You're almost dead

Go full psycho

Walk fast
Sleep less
Don't be lazy
Worthless
Empty
Hungry for money
Manic robots
They don't teach
Empathy
Something's off here
Oh so creepy

Walk fast
Don't stress
Pay the government
Hopeless
Empty
Chug your coffee
Manic robots
They don't teach
Empathy
Something's off here

Oh so creepy

Walk fast

Sleep less

Don't be lazy

Worthless

Empty

Hungry for money

Manic robots

They don't teach

Empathy

Something's off here

Oh so creepy
