

pills

Elohim

Take pills for the shakes
For the aches
For the chill of it
I take pills for my health
For myself
So I can live with it

I'm pretty fucked up but then again
Everybody is
I get a little choked up thinking 'bout
Where I'd be without it

It's not like I wanna, but I gotta take pills
It's not like I wanna, but I gotta

Take pills for the shakes
For the aches
For the chill of it
I take pills for my health
For myself
So I can live with it

I'm checking myself 'cause when I fade
My body isn't real
I get a little weirded out thinkin' bout
The way my brain spills

It's not like I wanna, but I gotta take pills
It's not like I wanna, but I gotta

Take pills for the shakes
For the aches
For the chill of it
I take pills for my health
For myself
So I can live with it

I get so numb and I don't even know what's real
I feel so dumb that I need pills so I can feel
I'm pretty fucked up but then again
Everybody is
I get a little choked up thinking 'bout
Where I'd be without it
Take pills for the shakes
For the aches
For the chill of it
