

She Talks Too Much

Elohim

I feel understated
Like I'm all in black
I got a good buzz going
And I'm good with that
I feel intoxicated
But my system's empty
I wanna fill it up, fill it up
Fill it up with something

(Oooooohhhh)
I'm on a good one now
(Oooooohhhh)
But she brings me down
(Oooooohhhh)
I'm on a good one now
(Oooooohhhh)
But she talks too much

It's like her lips are tokens
But she's just run out
It's like she's taking over
She talks too much
It's like the sound of crazy
And it's much too loud
It's like she's taking over
She talks too much

I feel tiger restless
My visions blurred
She sucks the air
Sucks the air out the room
I feel dislocated
But I'm standing here
Send up a flare
The coast is clear

(Oooooohhhh)
I'm on a good one now
(Oooooohhhh)
But she brings me down
(Oooooohhhh)
I'm on a good one now
(Oooooohhhh)
But she talks too much

It's like her lips are tokens
But she's just run out
It's like she's taking over
She talks too much
It's like the sound of crazy
And it's much too loud
It's like she's taking over
She talks too much (She talks too much)
(She talks too much, She talks too much)
She talks too much

(Oooooohhhh)

I'm on a good one now
(Oooooohhhh)
But she brings me down
(Oooooohhhh)
I'm on a good one now
(Oooooohhhh)
But she talks too much

It's like her lips are tokens
But she's just run out
It's like she's taking over
She talks too much
It's like the sound of crazy
And it's much too loud
It's like she's taking over
She talks too much

It's like her lips are tokens
But she's just run out
It's like she's taking over
She talks too much
It's like the sound of crazy
And it's much too loud
It's like she's taking over
She talks too much
