

## Back Into The Present

Eloy

Back into the present, it's different since I've been away  
War and desolation, it's getting worse with every day  
Even back in 1358  
People had to fight to keep things straight

Waiting in the disco, tell my friends just what I've seen  
They won't believe my story when I tell them where I've been  
Smoke and lights and music blow my mind  
Must go somewhere quiet to unwind
