

## Hero

Eloy

Hero!  
Tearing down every wall  
Bear your burden, conquer all  
Striving to never die  
Hero!  
Climbing the peak of fame  
'Til everybody calls your name  
A myriad of vocals cry  
Hero!  
Your struggle knows no end  
You're alone without a friend  
Setting your goal too high  
Hero!  
Yours is victory  
Going down in history  
And like a star to shine  
Do you realize  
You've taken on that task that is far too great  
The pressure grows  
But it's much too late  
And you recall  
The easy loving life that you left behind  
You can't control  
The whirlpools in your mind  
In your timeless world  
Your pulse beats fast, takes on an endless race  
You try to find a value for yourself  
But the way is too long  
Your toil is getting harder with every step  
Confusion rules:  
Your spirit's fighting back  
Under the storm  
And you return  
You raced along  
Going on  
Means going far  
Going far
