

Space Between Us

Elsiane

[Verse 1]

Feels like there's a million miles
Between me and your smile
The hours go by like days
Cause I'm missing you insane

[Pre-Chorus]

Even when we're worlds away
No matter how far, far, far
Our love will never fade
In the dark, dark, dark

[Chorus]

The space between us
Won't separate us
Ain't nothing gonna get in between
The space between us

[Verse 2]

I don't wanna fall asleep
Without you next to me
Wishin I could breathe your air
Wishin that you were here

[Pre-Chorus]

Even when we're worlds away
No matter how far, far, far
Our love will never fade
In the dark, dark, dark

[Chorus]

The space between us
Won't separate us
Ain't nothing gonna get in between
The space between us
