

Orbit

Elton John

I'm flying in your orbit, honey
I'm flying in your orbit, honey

How did I get here?
Can't loosen your grip
I'm shackled in heaven
Mmm, what a crazy trip
Faster than lightning
Straight to the heart
I gotta have ya
Come as you are

I'm flying in your orbit, honey
I'm flying in your orbit, honey
I'm flying in your orbit, honey
And I hope I never come down, down, down

Some kind of fusion
My heart and your heart
Romantic illusion
Lighting up sparks
It's more than beauty
It's more than life itself
Never be lonely
It's you and no one else

I'm flying in your orbit, honey
I'm flying in your orbit, honey
I'm flying in your orbit, honey
And I hope I never come down, down, down

I'm flying in your orbit, honey
I'm flying in your orbit, honey
I'm flying in your orbit, honey
I'm flying in your orbit, honey

I'm flying in your orbit, honey
I'm flying in your orbit, honey
I'm flying in your orbit, honey
I'm flying in your orbit, honey
