

# System Breakdown

Elusive

I'm on the last reason  
I've got a trembling mind  
Spent a long time  
To get it right  
I'm a growing hole  
In a small world  
I've come a long way  
To see it burn  
Through the hours of strangers and sorrow  
This is the end of the day

I can feel it now  
I can feel it now  
There's a dead end street  
For all the clowns

Break down  
I feel the darkness come along  
Tonight  
Inside the system  
Break down  
I feel the darkness come along  
Break down  
Inside the system

I found a friend in fear  
For she knows my time  
Every now and then  
She takes me for a ride  
And I'm past all reason  
Got a trembling mind  
She spent a short time  
To get it right  
Through the eyes of the faces so hollow  
This is the end of the day

I can feel it now  
I can feel it now  
There's a dead end street  
For all the clowns

Break down  
I feel the darkness come along  
Tonight  
Inside the system  
Break down  
I feel the darkness come along  
Break down  
Inside the system

Break down  
Inside the system  
Break down

Breathe the air of illusions  
And whisper me lies  
A song for the leaving

And she whispers tonight

I can feel it now  
I can feel it now  
There's a dead end street  
For all the clowns

Break down  
I feel the darkness come along  
Tonight  
Inside the system  
Break down  
I feel the darkness come along  
Break down  
Inside the system

Break down  
I feel the darkness come along  
Tonight  
Inside the system  
Break down  
I feel the darkness come along  
Break down  
Inside the system
