In the name of Ànu  
In the presence divine  
We pledge  
Our blood to be shed in war

We're lurching in a blood-soaked dystopian dream  
Sleepwalking towards the yawning abyss  
The throne of lies touts iniquity as good  
This is martial law, the final battle has begun

We're black holed in a synthetical phantom neverland  
Latch locked out of the presence of the gods  
In a world of nothing but mirrors and smoke  
We're walking the line and swallowed sainted truths

For we're uprising  
We're awakening  
We are change  
The change to come

Thy kingdom come  
Ànu ascend the throne  
Thy will be done  
As above, so below

Hark, the avengers have pulled the cold knell  
From nether sleep awoke the astray  
Deadlocked the rack rat race of the enslaved  
This is martial law, the rebellion has begun

We are flood  
We are fire  
We are the voice  
Of the gods  
We are one  
We are legion  
We're rebellion  
We are change  
The change to come

Thy kingdom come  
Ànu ascend the throne  
Thy will be done

As above so below  
Thy kingdom come  
Ànu ascend the throne  
Thy will be done  
Life will conquer and reign beyond
