

Always

Elvis Costello

I love you always
Always

I want you always
Always
Always

I used to know a girl
Maybe it was you
Faces change and names do too
And none of these things I've said are true

I want you always
Always
Always

She said, "The sun comes up in the dead of night
And the roof is rubber and it won't stay tight
And the floor is the deck of a ship on the sea
And you can't be sure of the shore"

I love you always
Always
Always
