

In That Sound

Elvis Depressedly

I've been down here many times before
I know a loneliness you don't know
Together we've lived many live times
When I say my heart is yours
Your heart undoes mine

Drown me now in that sound
Drown me now in that sound
Drown me now in that sound of crying out

I've been down here many times before
Past lives on my mind lying on the floor
My soul writes checks it knows it can't afford
In debt to regret

Drown me now in that sound
Drown me now in that sound
Drown me now in that sound of crying out
Of crying out
Of crying out
Of crying out
