

My Lai

Elvis Depressedly

I ain't never gonna learn to swim
So when the water rises to my mouth
I'm just gonna breath right through my smile
And be happy to drown

This planet is a torturer
Nature gets off on pain
From My Lai to your wife's black eye

From genocide to tooth decay

I ain't never gonna learn to run
So when the walls come tumbling down
I'm just gonna stay where I always been
I wanna die hanging around

This planet is a torturer
Mature gets off on pain
From My Lai to your wife's black eye

From genocide to tooth decay
