

## Prove It

Elvis Depressedly

You're leaving me the same way you found me  
Obliterated, insane, and drowning  
Around the world in a day and then nothing  
Communicating my pain got boring

Gotta let you out of my heart  
Gotta let you out of my heart  
Gotta let you out of my heart  
So we can start over

You're leaving me the same way you found me  
Commiserating with rage, sundowning  
I wrote on every page it's useless  
It wasn't worth all the pain

Let me prove it

Gotta let you out of my heart  
Gotta let you out of my heart  
Gotta let you out of my heart  
So we can start over
