

## Waves of Bad Intention

Elvis Depressedly

Laughing into darkness  
Love burning like a witch  
Swallowing these feelings  
Until they make you sick

There's no way to die

Dissolving empty pity  
Cast out beyond all fear  
Dragged through every city  
Beg the pain to disappear

There's no way to die

Starving for attention  
Kill your ego and eat that  
As the waves of bad intention  
Wash up in complete collapse

There's no way to die
