

Who Can Be Loved In This World?

Elvis Depressedly

Who can be loved in this world?
I'll be your girl you'll be my boy
I'll be your boy you'll be my girl
Who can be loved in this world?

When you talk drunk shit to me
It makes me feel like I am free
To fall into you easily and you can fall right into me

So you can be loved in this world
I'll be your girl you'll be my boy
I'll be your boy you'll be my girl
So you can be loved in this world

Let me hold onto your heart
While you heal your mind and I'll
Always be here when you need you are worth the waiting

So I can be loved in this world
I'll be your girl you'll be my boy
I'll be your boy you'll be my girl
So I can be loved in this world
So you can be loved in this world
So we can be loved in this world
Who can be loved in this world?
