

## Catchin' On Fast

Elvis Presley

Won't you show me how to kiss  
Put your lips on mine  
Do you do it just like this  
Tell me I'm doing fine  
We got a good thing going now take your time  
Come on and make it last.  
Love may be new to you but Oooh, I'm catchin' on fast

Give, give, gimme all you've got to give  
Love, love, love every moment you live  
Now you've taught me all you know  
Have I passed the test  
Show me all you've got to show  
Baby you're the best

But tell me I've learned quickly and I know each trick  
I'm sure love's gonna last  
Love maybe new to you but Oooh I'm catchin' on fast
