## So High

## **Elvis Presley**

Well, He's so high (so high you can't get over Him)
So wide (so wide you can't get around Him)
So low (so low you can't get under him)
Great God Almighty (you must come in at the door)

Oh well, He's high (so high you can't get over Him)
He's wide (so wide you can't get around Him)
So low (so low you can't get under him)
The mighty lamb (you must come in at the door)

Well I went down in the valley You know I did over there ever stay My soul got happy in the valley You know I stayed right there all day

Well, He's high (so high you can't get over Him)
And he's wide (so wide you can't get around Him)
I know he's so low (so low you can't get under him)
The mighty lamb (you must come in at the door)

Well I ain't been to heaven but I'm, I'm told The streets the streets are pearls You know the mighty mighty Mighty gates are gold

And He's high (so high you can't get over Him) So wide (so wide you can't get around Him) He's so low (so low you can't get under him) The mighty lamb (you must come in at the door)

Well, He's high (so high you can't get over Him)
And he's wide (so wide you can't get around Him)
I know he's so low (so low you can't get under him)
The mighty lamb (you must come in at the door)
