

We drove on up to the front gate  
The red lights don't cross my mind on a weekday  
That's a little lie, but real talk ain't cheap, is it LA  
A little time that's all I need, said I can't stay  
Never mind

Wanna fuck her in the bed and I wanna keep my eyes wide open  
'Cause she fucking with my head and it bringing me nothing but  
trouble  
Peace signs on fire, roses smell like burnt rubber  
Wanna feel what I feel, I don't wanna feel this oh mama

I love that bitch, I never I never wanna loose this shit, I  
Can't trust these lips, I never I never I never built these wal  
ls  
Oooh built these walls, oooh take these scars  
Oooh airbrush right over right over right over them

Said I love that bitch, I never I never wanna loose this shit,  
I  
Can't trust these lips, I never I never I never built these wal  
ls  
Oooh built these walls, oooh take these scars  
Oooh airbrush right over right over right over them

No waiting, I'm a stone on a downhill route I'ma just keep movi  
ng, yeah  
And she passive aggressive, I'm restless, I can't see through i  
t, no  
I can feel she's screwing, uh  
Me right but my psyche curb stomped by her Nikes  
Got blood on my white tee, but

Yeah, she wanna fuck me right here on the queen-  
size eyes wide open, yeah  
And it's fucking with me yeah, cause the flip-  
side looks like trouble, yeah  
Peace signs on fire, roses smell like burnt rubber, yeah  
Wanna feel what I feel, I don't wanna feel this oh mama

I love that bitch, I never I never wanna loose this shit, I  
Can't trust these lips, I never I never I never built these wal
